

Feed Through Terminal Block

No.1 Fire resistant

- Suitable for use in connection boxes, boxes, lighting fixtures, appliances and more
- Used for connection between multiple rigid conductors or multi strand wires with end terminal.
- Possible to connect cables on each side with diameter of up to 6mm²
- Flexible product structure allows for ease of installation.

Operating voltage: 400VAC

Maximum current: 32A

IP Rate: IP20

Materials:

Housing: PP Polypropylene fire-resistant

Contacts: brass (70% steel)

Entrance: 12

Screws per entrance: 2

Maximum cable diameter entrance: 6mm²

Tools for installation: slot screwdriver

Certification: SII certified

Countries: Universal
